FEATURES

- Tank constructed from seamless composite GRP
- All fittings including bulkhead fittings have threaded ends for rapid and simple maintenance
- Diffuser can be moved through 360° for easy access to sand bed. This unique design keeps sand level and water evenly distributed for optimum performance
- 8" transparent lid for easy viewing
- Lid-mounted pressure gauge with manual air relief valve
- Automatic air relief saves time during start-up
- Combined sand and water drain for quick and easy winterisation
- Supplied with 6 position multiport valve and connections

The Certikin Atika range of swimming pool filters is renowned for reliability. Its seamless construction eliminates any possibility of leakage and composite shell means that rusting or corrosion are impossible.

Simple to install, the Atika filter is designed for long life and ensures many years' enjoyment of swimming in crystal clear water.
